(54) Title: WIRELESS GAMING MACHINE

(57) Abstract: A disclosed gaming machine provides methods and apparatus for operating a wireless game player that presents a game of chance executed on a gaming machine in communication with the wireless game player. In one embodiment, the wireless game player is a hand-held mobile device, electronically linked to a licensed gaming machine via a wireless connection. All random number generation (RNG) events, game outcomes, meter information, game related information, and all cash transactions are maintained in the licensed (controlled) gaming machine and not the wireless game player. The wireless game player may be used anywhere within the legal areas of the casino and it has the capability of identifying who is using it. For example, a biometric input device, such as a finger print reader may be used on the wireless game player to identify the player. Thus, the issue of under-age or excluded players is addressed.

A. CLASSIFICATION OF SUBJECT MATTER

IPC 7 G07F17/32

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 G07F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, PAJ, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Patent family members are listed in annex.

° Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier document but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

"&" document member of the same patent family
